TIPS FOR IMPROVING YOUR APPLICATION AND DETAILS TO CONSIDER:

1. Our festival happens at night, think about how your project will be visible and noticeable in the dark.
2. Consider the scale of your art project and if it can be heard or seen from a distance.
3. If your project is more intimate, consider how it will stand out from the crowd and the best way to showcase it.
4. Our festival is for all ages and all people. Consider the safety and accessibility to all festival goers. Extension cords and heavy objects need to be secured etc.
5. CB Nuit is mainly an outdoor festival (with limited indoor spaces) that happens rain or shine. Think about how your project will hold up in the elements, especially the wind and rain. Find creative solutions to protect your project from the elements.
6. CB Nuit projects are site specific. Consider creating your project around a specific indoor or outdoor space along West Street. Google maps is a great way to have a closer look! (requested sites are not guaranteed).
7. Project installation, execution and take down will be the responsibility of the artist. Projects need to be removed by the end of Festival night without damage to property or the environment. The CB Nuit Team and volunteers will provide support for installation and take down.
8. Please consider the carbon footprint of your project. CB Nuit is a friend of planet Earth!
